JUICE LAB at Hollins Market  
40 S. Carrollton Ave.  
Baltimore, MD 21223

One of our very own small businesses at Hollins Market! Shani and JR were scheduled to open in March, but covid-19 got in the way. This business is near and dear to my heart because they are friends, I believe in their mission, and their juice and bowls flat out rock!

Juice Lab Company offers fresh cold pressed juices, dairy-free smoothies and bowls. We use a hydraulic cold press machine to ensure that 100% of the nutrients, vitamins, minerals and enzymes found in each pound of produce stays intact directly into the bottle. They work with local farmers and produce vendors to support Baltimore businesses and ensure they are providing you with only the highest quality products.

Their goal is to provide nutritious and high-quality cold-pressed juices, smoothies, bowls to everyone. They believe every community in Baltimore should have access to the health benefits that are yielded when incorporating raw fruits and veggies into one's regular diet. They aim to educate and provide this access to Baltimoreans of all economic backgrounds. Who can argue that these peeps aren't great for our community, so show them support them with your grocery orders. We will feature their juices weekly in our chia and dessert recipes.
